### DISCLAIMER

#### USE OF NON-GAAP MEASURES

OSE OF NON-GARP MEASURES

This document refers to EBITDA because certain investors may use this information to assess the Company' performance and also determine the Company's ability to generate cash flow. This data is furnished to provide additional information and is a non-GARP measure and does not have any standardized meaning prescribed by GARP and therefore may not be comparable to similar data presented by other issuers. It should not be considered in isolation as a substitute for measures of performance prepared in accordance with GARP and is not necessarily indicative of operating costs presented under GARP. EBITDA is not income (loss), excluding the effects of income taxes (recovery), net interest expense, depreciation and amortization; and Adjusted EBITDA also includes non-cash fair value adjustments on investments, unrealized foreign currency gainsifosses, share-based compensation expense and other transactional and special expenses, such as acquisition costs and expenses related to the markup of acquired finished goods inventory, which are inconsistent in amount and frequency and are not what we consider as typical of our continuing operations. Management believes this measure provides useful information as it is a commonly used measure in the capital markets and as it is a close proxy for repeatable cash generated by operations. We use Adjusted EBITDA internally to understand, manage, make operating decisions related to cash flow generated from operations and evaluate our business. In addition, we use Adjusted EBITDA to help plan and forecast future periods.

#### ON FORWARD-LOOKING STATEMENTS

This document includes information, statements, beliefs and opinions which are forward-looking, and which reflect current estimates, expectations and projections about future events, referred to herein as 'forward-looking statements' or 'forward-looking information'. Statements containing the words 'believe', 'expect', 'intend', 'should', 'ssek', 'anticipate', 'will', 'positioned', 'project', 'risk', 'plan', 'may', 'restimate' or, in each case, their negative and words of similar meaning are intended to identify forward-looking statements. By their nature, forward-looking statements and unknown risks, uncertainties and assumptions concerning, among other things, the Company's anticipated business strategies, anticipated trends in the Company's business and anticipated market share, that could cause actual results or events to differ materially from those expressed or implied by the forward-looking statements. These risks, uncertainties and assumptions could adversely affect the outcome and financial effects of the plans and events described herein are consistent with the forward-looking statements contained in this document, those results or developments may not be indicative of results or developments in subsequent periods. Although Lowell Farms has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking information. Here may be other factors and risks that cause actual results to differ materially from those described in forward-looking information on the remaining of the state of the plans and events described in forward-looking information and a description of risk factors that may cause actual results to differ materially from those described in forward-looking information and a description of risk factors that may cause actual results to differ materially from florward-looking information can be found in the Company's disclosure documents, such as the Company's listing statement and management's discl

#### ON FUTURE-ORIENTED FINANCIAL INFORMATION

To the extent any forward-looking information in this Presentation constitutes "financial information" or "financial outlooks" within the meaning of applicable Canadian securities laws, such information is being provided to demonstrate the anticipated market penetration of the Company's products and the reader is cautioned that this information may not be appropriate for any other purpose and the reader should not place undue reliance on such future-oriented financial information and financial outlooks. Future-oriented financial information and financial outlooks, as with forward-looking information generally, are, without limitation, based on the assumptions and subject to the risks set out above under the heading "On Forward-Looking Statements". Indus' actual financial position and results of operations may differ materially from management's current expectations and, as a result, Indus' revenue and expenses may differ materially from management's current expectations and, as a result, Indus' revenue and expenses may differ materially for perations.

## CULTIVATION

7

## **CULTIVATION STRATEGY**

- Sourcing via Lowell Farm Services and our own captive cultivation (which generates nearly 10k lbs of high-quality finished flower every quarter)
- Strain diversification and leadership
- Cost through economies of scale
- Quality leadership under a team of award-winning growers
- Develop portfolio of facilities that each have sufficient scale

## LOWELL FARM SERVICES (LFS)

- Commissioned in July of 2021, LFS is a "midstream processing" service for local growers in the most fertile environment in America
- Facility is initially commissioned to process approximately 250,000 pounds of finished flower annually from diverse growers in the fertile Salinas Valley and surrounding areas
- Processing is a massive pain-point in California cannabis with complicated building-codes and facility requirements that are expensive to accommodate and difficult to staff
- · Centralized services allows large-scale automation to give growers the best results for their harvests
- LFS is a unique service without any peers in Northern California

"We are commissioning LFS to answer a pressing need in the market for which we see no other solution in sight. We seek to service the massive and fast-growing cannabis cultivation industry in California, not to compete with it" said Chairman George Allen, "large-scale processing and automation are the missing pieces that will make California cannabis dominant in this exciting new frontier of agriculture."

9

## SEVERAL DEMAND-DRIVERS POWER OUR FUTURE

- California: Grows an estimated 17 million pounds of cannabis annually, nearly 60% of total American supply
- Monterey County: With 4.1 million square feet, it is the third largest county in the state poised for explosive growth with recent expansion ordinances that are welcoming to large-scale cannabis
- Adjacent San Benito County: Previously closed to cannabis cultivation, opening with multiple operations pending approval
- Santa Cruz County: Dozens of outdoor operations and greenhouses

Monterey is the third highest county in California for agricultural output and adjacent to the other four counties that make up the top-five

## LOWELL FARMS: WHERE GREAT WEED GROWS

- 225,000 sq. ft. retrofitted greenhouse in Monterey County, CA
- Unique state of the art facility generates industry-leading yields at sun-grown costs
- Nearly 10,000+lbs of flowers every quarter
